BELLSOUTH TELECOMMUNICATIONS, LLC D/B/A AT&T SOUTHEAST TO
DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES**

WC Docket No. 12-322
Comp. Pol. File No. 1060

Comments Due: November 26, 2012

Section 214 Application

Applicant: AT&T Services Inc. on behalf of BellSouth Telecommunications, LLC d/b/a AT&T Southeast

On **October 15, 2012**, **AT&T Services Inc.** (AT&T or Applicant) filed an application with the Federal Communications Commission (FCC or Commission) on behalf of its affiliate, **BellSouth Telecommunications, LLC d/b/a AT&T Southeast** (AT&T Southeast or Applicant), located at **One AT&T Way, Rm 5C222K, Bedminster, NJ 07921**, requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue a certain domestic telecommunications service in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee (collectively Service Areas). With an amendment filed on November 8, 2012, AT&T corrected certain deficiencies in its application and updated the record regarding revised notice to customers. Accordingly, AT&T's application is deemed complete as of November 8, 2012.

AT&T indicates that AT&T Southeast currently offers Wavelength Dedicated Ring Service (WDRS) in the Service Areas. AT&T explains that WDRS provides high volume transparent and bit rate specific optical transport capabilities in a dedicated ring configuration. AT&T asserts, however, that AT&T Southeast plans to discontinue the service because of low market demand. AT&T indicates that, on or after December 1, 2012, subject to Commission authorization, AT&T Southeast plans to no longer offer WDRS to new customers and plans to impose certain restrictions on service to existing customers. AT&T specifies that, effective December 1, 2012, subject to Commission authorization, AT&T Southeast plans to no longer allow existing customers to renew term payment plans, enter into new term agreements, or add new WDRS nodes at new locations, although existing customers will be allowed to modify their existing WDRS to add new circuits between existing node locations. AT&T asserts that AT&T Southeast plans to no longer accept move, add or change orders of any type for existing WDRS effective December 1, 2016. In addition, AT&T clarifies that, upon expiration of existing term agreements, AT&T Southeast will continue to provide WDRS on a month-to-month basis until it discontinues the service entirely, which is currently planned for September 30, 2017. AT&T maintains that the public convenience and necessity will not be impaired by the proposed discontinuance because there is very low market demand for the service and a variety of transport services are readily available from AT&T and other providers including AT&T Ultraviolet Network Service. AT&T indicates that affected customers were sent letters regarding the proposed discontinuance via U.S. mail on October 11,

2012, and that affected customers also were notified with revised letters sent in accordance with section 63.71 of the Commission's rules on November 2, 2012. AT&T asserts that AT&T Southeast offers WDRS pursuant to non-dominant carrier regulation.

In accordance with section 63.71(c) of the Commission's rules, AT&T's application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies AT&T that the grant will not be automatically effective. In the application, AT&T indicates that AT&T Southeast plans to discontinue offering WDRS to new customers and plans to impose certain restrictions on service to existing customers in the Service Areas on or after December 1, 2012, subject to Commission authorization. AT&T asserts that AT&T Southeast also plans to no longer accept move, add or change orders of any type for existing WDRS effective December 1, 2016. AT&T clarifies that, upon expiration of existing contracts, AT&T Southeast will continue to provide WDRS to existing customers on a month-to-month basis until it discontinues the service entirely, which is currently planned for September 30, 2017. Accordingly, pursuant to section 63.71(c) and the terms of the application, absent further Commission action, AT&T Southeast may cease to offer WDRS to new customers and may impose restrictions on service to existing customers in the Service Areas on or after **December 10, 2012**, in accordance with AT&T's filed representations. In addition, pursuant to section 63.71(c) and the terms of the application, absent further Commission action, AT&T Southeast may cease to accept move, add or change orders of any type for existing WDRS in the Service Areas on or after December 1, 2016, and may discontinue WDRS in the Service Areas on or after September 30, 2017, in accordance with AT&T's filed representations. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

Comments objecting to this application must be filed with the Commission on or before **November 26, 2012**. Such comments should refer to **WC Docket No. 12-322 and Comp. Pol. File No. 1060**.
